

ACTISEED ZnMn

SEED BIO STIMULANT

ACTISEED ZnMn is a seed bio stimulant manufactured by **Agronutrition, France** and imported by **Roshni Crop Sciences Pvt. Ltd.** through **Sumitomo Corporation, Japan.**

ADVANTAGES OF ACTISEED ZnMn (Seed Treatment)

1. ACTISEED ZnMn is a seed bio stimulant associated with Manganese and Zinc along with protein extracts.
2. Supplements inadequate nutrient reserves in the seed.
3. Nourishes the crop at the critical early stages.
4. ACTISEED ZnMn helps in absorption of Manganese and Zinc during early stages of crop growth.
5. Improves plant vigor and enhances disease resistance.
6. Safeguards against drought stress.
7. Assists in the stimulation of seed germination and root growth.
8. Adhesion to the seed is excellent hence, problems of dusting often encountered with powder products can be avoided.
9. Protein extracts induces genes in order to enhance the potential of plants by limiting environmental aggressions during their growth.
10. Because of these protein extracts, the plant reinforces itself to preserve all of its potential for growth (quantitative and qualitative).
11. ACTISEED ZnMn can be co applied with wide range of fungicides and insecticides that are commonly used as seed protectants.

ACTISEED ZnMn usage: It should be applied to Seed before sowing.

Dosage: 6ml per kg seed

Crops: Recommended for all crops.

Imported and Marketed by:

ROSHNI CROP SCIENCES PVT. LTD.

Flat No. 201, Sai Raja Nivas, Krishnapuram,
Road No. 10, Banjara Hills, Hyderabad - 500 034.
